# RESILIENCE OF THERAPIST & CLIENT

Athens Area Psychological  
Association  
Professional Development  
Series

## *Grand Rounds*

*Continuing Education*

**Series includes:**

**(3) 2-hour workshops**

**(2) 2-hour book club events**

Book club selections:

1. **Why People Die By Suicide (2005) or Myths About Suicide (2010)**  
by Thomas Joiner, Ph.D.
2. **Aging Well (2002)**  
by George Vaillant, M.D.

## LOCATION OF PROGRAMS

All workshops will be held at Advantage Behavioral Health, 10:00 am -12:00 pm in the Director's Conference Room.

The Book Club events will be held at 195 Deer Ridge in Athens, GA from 1:00 – 3:00 pm.

## CONTINUING EDUCATION

This professional development series qualifies for *Area I – Academic Courses & Professional Supervision*. There will be 10 hours of programming on the topic of Resilience of the Therapist & Client resulting in 10 hours of CE credit. Certificates of completion awarded after fulfillment of requirements.

**IMPORTANT:** To receive CE credit, psychologists must be present for at least 80% (4 out of 5) programming activities.

## REFUND POLICY

We will gladly issue full refunds for cancellations made by 5:00 pm, EDT, September 14, 2011. No refunds will be issued thereafter. If a program is cancelled for any reason, AAPA will not be responsible for any cancellation changes/charges assessed for travel. An alternate program or time will be re-scheduled.

\*Speakers subject to change

# RESILIENCE OF THERAPIST & CLIENT

**SEPTEMBER 16, 2011 (Workshop) Marie Williams, PhD**

## **FORENSIC PSYCHOLOGY: WHAT THE NON-FORENSIC PSYCHOLOGIST NEEDS TO KNOW**

This presentation will focus on the extreme eventualities which most of us do not encounter in everyday practice but with which we need to be familiar when they do occur. Dr. Williams, who is a forensic and clinical psychologist currently employed at Central State Hospital, will focus on the issues surrounding three questions:

1. When and how to proceed with a 1013 in a private office in Athens. The responsibilities and risks that fall to the practitioner.
2. How the general practitioner deals with forensic issues. How to make appropriate referrals in these cases when they involve an ongoing client.
3. Changes in the law involving forensic commitment as they relate to IST and NGRI.

**OCTOBER 21, 2011 (Book Club) Why People Die By Suicide (2005) or Myths About Suicide (2010)**  
by Thomas Joiner, Ph.D.

**FEBRUARY 17, 2012 (Book Club) Aging Well (2002)** by George Vaillant, M.D.

**APRIL 13, 2012 (Workshop) Gayle Spears, Ph.D**

## **ETHICAL DILEMMAS THAT KEEP THERAPISTS AWAKE AT NIGHT**

We go to APAIT's risk assessment workshops and hear the horror stories. But what are the most common complaints that come before our Georgia State Licensing Board and the GPA Ethics Committee? This consciousness-raising two hour presentation by the chair of the GPA Ethics Committee will bring to light the less publicized ethical errors and will help us practice with fewer fears.

**JUNE 15, 2012 (Workshop) PANEL**

## **WHAT MATURE PSYCHOLOGISTS CAN TELL US ABOUT RESILIENCE**

A panel of retired psychologists will discuss the lessons they have learned to survive and thrive in practice. They will focus on the ways in which they have taken care of themselves in order to stay healthy while caring for others. They will discuss the best measures as well as the pitfalls they have discovered as they have moved through the various stages of their personal and professional lives, including the move into retirement.
